ILIAS ERMEIDIS

Curriculum Vitae

Personal Information

First name:	Ilias	Last name:	Ermeidis
Nationality:	Greek	Location:	Vironas, Athens, 16232, Greece
Date of birth:	16.12.1995	E-mail:	ermeidis95@gmail.com
ORCID iD:	0009-0007-5242-8550	Webpage:	https://iliasermeidismath.github.io/

Academic Positions

03.2026 – present **Postdoctoral Researcher**, *Aristotle University of Thessaloniki*, Greece
- Member of the research group led by Panagiotis Batakidis.

Signalman–Cryptographer, *Hellenic National Defence General Staff*, Athens, Greece, 11.2024 – 11.2025, Mandatory National Service

Education

10.2020 – 12.2024 **Ph.D. in Mathematics**, *Georg-August-Universität Göttingen*, Germany
- Doctoral dissertation: "Deformations of Ideals in Lie Algebroids" (153 pages)
- PhD defence date: 10.02.2025, Degree issuance date: 31.07.2025
- Supervisor: Madeleine Jotz (JMU Würzburg)

10.2018 – 7.2020 **M.Sc. in Mathematics**, *Aristotle University of Thessaloniki*, Greece
- Specialization in Pure Mathematics
- Master's thesis: "Courant Algebroids, L_∞-algebras and Symplectic Geometry" (79 pages)
- Supervisor: Panagiotis Batakidis

10.2013 – 7.2018 **B.Sc. in Mathematics**, *Aristotle University of Thessaloniki*, Greece
- Special Topics I : "Minimal surfaces in three-dimensional Euclidean space and their properties", (62 pages) in Greek, under the supervision of Fani Petalidou
- Special Topics II : "Introduction to Differential Topology", (35 pages) in English, under the supervision of Efthimios Kappos

Scholarships, Grants and Awards

06.08.2026 Second Prize, *Best Poster Competition*, Poisson Summer School 2026, University of Antwerp, Belgium.

03.08.2026 – 15.08.2026 Young Researcher and Innovator Conference Grant, CA21109 – COST Action CaLISTA, supporting the poster presentation *Deformations of Normal Lie Subgroups* at Poisson 2026: Summer School and Conference.

25.01.2026 – 07.02.2026 Short-Term Scientific Mission Grant, CA21109 – COST Action CaLISTA, supporting a research visit hosted by Dr. João Nuno Mestre at CMUC, Coimbra, Portugal.

10.2020 – 11.2024 PhD Scholarship, Graduate School Scholarship Programme (GSSP), Deutscher Akademischer Austauschdienst (DAAD).

Teaching Experience

09.2026 – present Mathematics Teacher (Secondary Education), 50th and 51st Athens High Schools, Greece.

10.2021 – 02.2022 Teaching Assistant, Master's Course: *Lie Theory*, University of Würzburg, Germany.

Selected Talks, Poster Presentations, and Events Attended

Talks

28.01.2026 Invited talk: *Deformations of Lie Ideals*, CMUC Geometry Seminar, University of Coimbra, Portugal.

15.12.2025 Invited talk: *Deformations of Ideals in Lie Algebras*, Algebra and Geometry Day, Aristotle University of Thessaloniki, Greece.

28.04.2025–30.04.2025 Invited talk: *Deformation Theory of Lie Ideals*, three-day event "New, Original, and Salient Topics in Salonica", Aristotle University of Thessaloniki, Greece.

06.03.2024–08.03.2024 Contributed talk: *Deformations of Ideals in Lie Algebras*, 59th Seminar Sophus Lie, Würzburg, Germany.

20.03.2024 Invited talk: *Deformations of Ideals in Lie Algebras*, Geometry Seminar, Aristotle University of Thessaloniki, Greece.

08.05.2023 Invited talk: *Deformations of Ideals in Lie Algebras*, Geometry Seminar, University of Salerno, Italy.

07.12.2022–09.12.2022 Invited talk: *About Deformations of Foliations on Lie Algebroids*, Atelier on Higher Structures in Differential Geometry, Institut Camille Jordan, Université Claude Bernard Lyon 1, France.

19.04.2021 Invited talk: *Deformations of Infinitesimal Ideal Systems in Lie Algebroids*, Graduate Seminar, Department of Mathematics, Aristotle University of Thessaloniki, Greece.

Posters

03.08.2026–14.08.2026 *Deformations of Normal Lie Subgroups*, presented at Poisson 2026: Summer School and Conference, University of Antwerp and KU Leuven, Belgium.

08.07.2024–12.07.2024 *On Deformations of Infinitesimally Multiplicative Distributions on Lie Algebroids*, presented at Poisson 2024, University of Napoli Federico II, Italy.

30.09.2024–04.10.2024 *On Deformations of Infinitesimally Multiplicative Distributions on Lie Algebroids*, presented at the RTG 2491 Autumn School "From T-duality via K-theory to Representation Theory", University of Göttingen, Germany.

20.03.2023–24.03.2023 *Towards the Deformation Theory of Infinitesimally Multiplicative Foliations*, presented at the Graduate School in Mathematical Physics "Interactions between Poisson Geometry and Quantization", University of Göttingen, Germany.

Conferences, Workshops, and Schools

20.09.2023–22.09.2023 *Poisson Geometry, Higher Structures, and Deformation Theory*, International Workshop, Würzburg, Germany.

17.04.2023–21.04.2023 *Higher Structures in Geometry and Mathematical Physics*, CIRM–IHP Program Research School, France.

26.09.2022–30.09.2022 *Lie groupoid week in Coimbra*, Mini-School, Coimbra, Portugal.

18.07.2022–29.07.2022 *Poisson 2022 Advanced School and Conference*, Barcelona and Madrid, Spain.

06.06.2022–10.06.2022 *Non-commutative Geometry and Higher Structures*, Workshop, Scalea, Italy.

28.02.2022–04.03.2022 *Pseudodifferential Operators, Foliations and Groupoids*, Winter School, Göttingen, Germany.

10.01.2022–14.01.2022 *Lie Theory and Poisson Geometry*, Workshop, Centre International de Rencontres Mathématiques (CIRM), France.

16.08.2021–20.08.2021 *A Finite and Infinite-Dimensional Meeting on Lie Groupoids, Poisson Geometry and Integrability*, Faculty of Mathematics and Economics, Universität Wien, Austria.

02.08.2021–13.08.2021 *Geometry and Quantization (GEOQUANT) 2021*, International School and Conference, University of Freiburg, Germany.

31.10.2019–02.11.2019 *Workshop on Contact and Poisson Geometry*, West University of Timișoara, Romania.

Academic Service

Journal Refereeing

Communications in Algebra.

Reviewing

2026 – present Reviewer for zbMATH Open.

Organization

30.09.2024 – 04.10.2024 Co-organizer of the RTG 2491 Autumn School "From T-duality via K-theory to Representation Theory", University of Göttingen, Germany.

Research Visits

04.06.2026 – 11.07.2026 University of Coimbra, Portugal, Department of Mathematics. Host: J. N. Mestre.

25.01.2026 – 07.02.2026 University of Coimbra, Portugal, Department of Mathematics. Host: J. N. Mestre.

02.11.2025 – 09.11.2025 University of Salerno, Italy, Department of Mathematics. Host: L. Vitagliano.

22.04.2023 – 13.05.2023 University of Salerno, Italy, Department of Mathematics. Host: L. Vitagliano.

Publications

Journal Articles

Deformations of ideals in Lie algebras. *Journal of Algebra*, Vol. 713 (2027), 283–355. doi:10.1016/j.jalgebra.2026.07.011, joint with Madeleine Jotz.

Preprints

On the Moser trick for Lie subalgebras and foliations. arXiv preprint, arXiv:2606.25848. (*under review*)

Ongoing projects

Cohomological Obstructions to a Stability Result in Dirac Geometry.

Deformations of Normal Lie Subgroups (joint with João Nuno Mestre).

Rigidity and Gauge-Equivalences of Lie Subalgebroids (joint with Panagiotis Batakidis and Sebastian Dáza).
